Subject: Tower Road Safety Proposal

Dear Mr. Sexton,

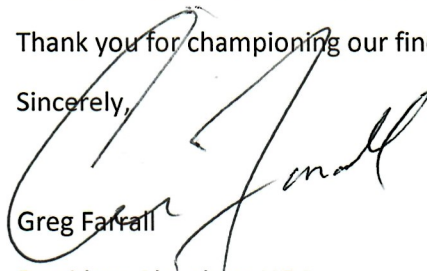

Since February of 2021, our Aberdeen Safety & Security Committee has met together to represent most of the neighborhoods in Aberdeen. They made the following recommendations to the Aberdeen HOA Board so that we may formally reach out to the Porter County Roads commission with a formal request document for safety improvements in our neighborhood.

Below are the prioritized items:

- 1). Resurfacing, striping, and road reflectors installation on Tower Road
- 2). A narrowing of Tower Road, entering from the north on 250, by creating a formal bike lane on the West side of Tower Road from Turnberry to Division. This will eliminate parking of any kind on Tower Road.
- 3). The installation of stop signs and marked crosswalks at Turnberry, Ballantree, and Edinburgh intersections. More than half of our pedestrian residents cannot cross Tower Road in a safe manner to gain access to the pool, playfields, playground, and golf course.
- 4). Installation of solar-powered speed signs (similar to Heritage Valley) at three crucial speeding points on Tower Road. We have identified three crucial violation points.
- 5). With the anticipation of the 450 home Golden Oaks project going in on Division south of Aberdeen, the cut-through traffic will eventually double.

Thank you for championing our findings and detailed recommendations.

Sincerely,

Greg Farrall

President Aberdeen HOA
